## AVISTAR C3 DESKTOP IS A STANDARDS-BASED, SCALABLE, INTEROPERABLE, USEABLE AND RELIABLE DESKTOP VIDEOCONFERENCING SOLUTION WITH A CONSISTENT, HIGH QUALITY VIDEO AND AUDIO EXPERIENCE.

Avistar C3 Desktop delivers a cost effective, high quality, single-click desktop videoconferencing and collaboration experience that makes it easy for users to communicate with people in the office, from the road or in the home office. In today's world, keeping communication levels high while reducing costs is imperative to any business. Avistar C3 does both, and more!

Avistar C3 Desktop uses standard features such as instant messaging-style ability to initiate corporate video communications, multi-party calls and directory integration. The advanced telephony features include video transfer, video call waiting, 2-line video calling, hold/resume and message retrieval supported by existing communication processes.

## BUSINESS-CLASS VIDEOCONFERENCING TECHNOLOGY

Avistar C3's patent-protected dynamic bandwidth management enables thousands of users to access desktop videoconferencing, VoIP and streaming media. Users can originate multi-party videoconferences from any location, knowing that Avistar C3 will work well because it is standards-based and can connect parties through multiple firewalls and network configurations. More importantly, they know Avistar C3 offers the business-class features they need.
