

Avistar C3 Desktop Video Solutions

Converge, Communicate, Collaborate – C3™

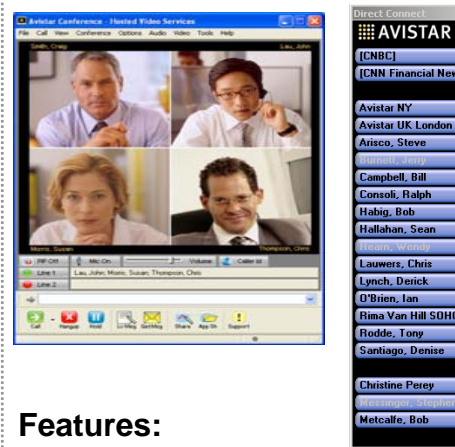

One-to-One Calling + Data Collaboration

Features:

- Presence based 'One-Click' Calling
- 2-Line Calling (hold, merge, resume, etc.)
- User Directory Services
- Share Button – launches a document/data sharing tool
- Integration with IBM Sametime™ and MS SmartTags™

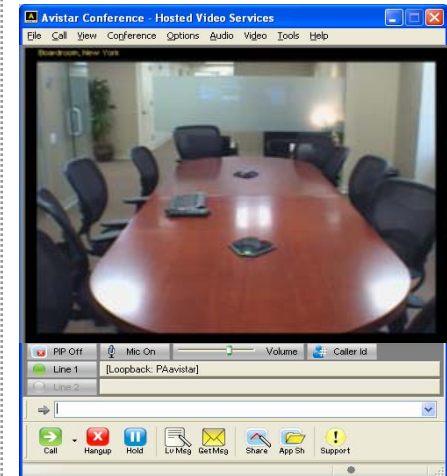

Multi-Party Calling

Features:

- Create multi-party conference calls on-the-fly
- Individual participant control (hold, hang up, etc.)
- H.264 video
- G.722 audio

Media Gateway

Features:

- H.323 interoperability with room-based conference systems

- ☑ **Save Money:** Predictable, proven & scalable
- ☑ **Reduce Complexity:** All software and hardware included. Proves a turnkey video infrastructure
- ☑ **Rapid Deployment:** Quickly deploy new desktop video users without needing to install complex infrastructure
- ☑ **Lower Implementation Risk:** IT staff do not need to become video technology experts

Converge, Communicate, Collaborate – C3™
